## DETAILED ACTION

### *Claim Objections*

1. Claim 11 is objected to because of the following informalities: the limitation of “; and” at the end claim 11 appears to be a typographical error. Appropriate correction is required.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 16 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hieda US patent No. 6,088,057 in view of Fujii.

Regarding claims 16 and 17, Hieda teaches (fig. 1) a single monolithic integrated circuit including CCD imager (2) (fig. 1) and a CMOS analog to digital converter (3) coupled to receive image signals from the CCD optical integration section (fig. 1).

Hieda does not explicitly teach an array of CCD imager.

Fujii teaches forming an array of CCD imagers as illustrated in figs. 8 and 9.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to form an array of CCD imager as taught by Fujii in the structure of Hieda in order to form an imaging device with reduced dark current.

The recitation “a camera system” has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any

Art Unit: 2811

patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

***Allowable Subject Matter***

2. Claims 1, 3, 8-10, 18, 20-21, 32-35 are allowed.

***Allowable Subject Matter***

3. Claims 11, 13-15 would be allowable if rewritten to overcome the objection, set forth above.

***Response to Arguments***

4. In response to applicant's argument that neither Hieda nor Fuji alone or in combination teaches or suggests each and every element of claims 16 and 17, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, what Hieda lacks, Fuji teaches, forming an array of CCD imagers as illustrated in figs. 8 and 9. Therefore one

Art Unit: 2811

of ordinary skill in the art would look into Fuji to form an array of CCD in order to form an imaging device with reduced dark current as stated above in the rejection.

### **Conclusion**

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
